

AERATOR

Lawn aerators

Ventilating the lawn is essential if you want it to stay green for as long as possible. However, the ventilation process can take too much time when using traditional tools. Nortene has found the solution: ventilating shoes that you can attach to the bottom of your shoes. Walk over your lawn and the soil will be ventilated in just a few minutes.

Benefits

Pair of spiked soles with fastenings.

Characteristics

Green ventilating shoes with straps and spikes. Suitable for any type of foot.
