

REED MULTI

Thin reed canes, assembled in small bundles

A fence made of thin reeds, assembled into small bundles, creating a decorative and natural enclosure.

Benefits

Natural reed fence, crafted from young reed canes bundled together and linked with galvanized wire.
Tightly woven for effective sight screening, this fence offers a blend of decorative appeal and natural beauty.
Eco-responsible choice: reed is a fast-growing, easily renewable resource.
Simple installation with Twister and Twister Fix accessories.

Characteristics
