

GREEN DENIA EVOLUTION 30

Denia Evolution 30 mm

Artificial grass made of the latest generation of artificial fibers. This gives the grass a lush appearance and the stalks reappear in a very short time.

Benefits

With artificial turf, you'll enjoy a green garden all year round without worrying about the weather. Its natural and realistic appearance, along with its resistance to weather conditions and easy maintenance, make it a versatile choice for balconies, terraces, gardens, and play areas. Additionally, it eliminates the need for watering, pesticides, and fertilizers. It's pet-friendly, offering a durable and convenient solution for any space.

MAINTENANCE TIPS:

- Once the grass is unrolled, let it rest for at least 24 hours before installing it.
- Once installed, brush the grass from time to time, depending on how it is used.
- For a better result, use a special brush for artificial grass such as the Nortene BRUSHY model.
- To remove dust, sand or other small debris present in the hair, a conventional vacuum cleaner can be used.
- Apply the CLEAN cleaner and Nortene FRAGRANCE to give it an unbeatable appearance.

- It is not recommended to install artificial grass near glass and / or metal surfaces

exposed to direct sunlight.
- The reflection of the sun on the glass causes a very high temperature and can cause burns to the blades of grass due to the magnifying effect on the grass.
