MAINTENANCE TIPS:

- Once the grass is unrolled, let it rest for at least 24 hours before installing it.
- Once installed, brush the grass from time to time, depending on how it is used.
- For a better result, use a special brush for artificial grass such as the Nortene BRUSHY

model.

- To remove dust, sand or other small debris present in the hair, a conventional vacuum cleaner can be used.

- Apply the CLEAN cleaner and Nortene FRAGRANCE to give it an unbeatable appearance.

- It is not recommended to install artificial grass near glass and / or metal surfaces exposed to direct sunlight.

- The reflection of the sun on the glass causes a very high temperature and can cause burns to the blades of grass due to the magnifying effect on the grass.
