

GREEN NEW PIAZZA EVOLUTION 40

New Pîazza Evolution 40 mm

State-of-the-art turf, with a very natural appearance, high level of greenery, softness and an excellent recovery capacity after foot traffic that differentiates it from other models on the market.

Benefits

With artificial turf, you'll enjoy a green garden all year round without worrying about the weather. Its natural and realistic appearance, along with its resistance to weather conditions and easy maintenance, make it a versatile choice for balconies, terraces, gardens, and play areas. Additionally, it eliminates the need for watering, pesticides, and fertilizers. It's pet-friendly, offering a durable and convenient solution for any space.

MAINTENANCE TIPS:

- Once the grass is unrolled, let it rest for at least 24 hours before installing it.
- Once installed, brush the grass from time to time, depending on how it is used.
- For a better result, use a special brush for artificial grass such as the Nortene BRUSHY

model.
- To remove dust, sand or other small debris present in the hair, a conventional vacuum cleaner can be used.
- Apply the CLEAN cleaner and Nortene FRAGRANCE to give it an unbeatable appearance.

- It is not recommended to install artificial grass near glass and / or metal surfaces exposed to direct sunlight.
- The reflection of the sun on the glass causes a very high temperature and can cause burns to the blades of grass due to the magnifying effect on the grass.
