

GEOTEX BALCONY

Drainage sheet for window boxes and wooden planters

MADE IN FRANCE · 100% Recyclable · PES

A simple and practical way to keep compost and drainage layers separate in a planter. First, cut the felt piece to the size of your planter. Then place the Geotex Balcony at the bottom of the planter before filling with compost.

Benefits

Non-woven felt in thermally bonded polyester fibres. Keeps compost layers separate from drainage layers in planters and pots. Stops compost from mixing with the drainage layer.

Characteristics

In non-woven polyester. 100g/m². Colour: grey. Rot-proof. Made in France.
