

PRONET

Reinforced protective netting

MADE IN EUROPE · UV RESIST · 100% Recyclable · PE

Woven, PE mesh. Strong enough for demanding use or over several years.

Benefits

Reinforced protective net. It protects crops from bird attacks. The knitted mesh gives it resistance allowing use over several years. Can be placed on trees or in tunnels for small fruits.

Characteristics

Made of knitted polypropylene. Anti-UV treated. Very resistant. 20 x 20 mm mesh. Green/black color. Available in 2 sizes.
