

ECHELLE

Ladder support

Very practical for staking potted plants, this ladder stake offered by Nortene is also a decorative element for the plant. Indeed, in addition to serving its function as a stake, this ladder stake adds a decorative touch.

Benefits

Supports the growth and development of potted plants.
The stake acts as a guide for the plant's vertical growth and proper distribution.
Very durable, it can be used for many seasons.
It can be cleaned.

Characteristics

Material: Polypropylene.
For potted plants.
