

MODULO BAG

Planting bag for MODULO GARDEN

PE

An accessory that it is essential to install inside MODULO GARDEN, to hold the soil in place and grow your plants on your patio or balcony.

Benefits

A planting bag especially adapted to fit MODULO GARDEN kitchen gardens. Fitted with 2 hems in the upper part to insert a PVC support, thereby giving it good stability in the MODULO GARDEN 40 cm high layout. For use on an above-ground height of 20 cm, fold down the surplus and hold it in place using the poppers placed on the 2 opposite sides.

Characteristics

In 120 g/m2 polyethylene.
Adjustable height from 40 to 20 cm.
Side PVC bracing in 30 cm segments with connectors.
With UV protection.
Dark green colour.
3 sizes adapted to the MODULO GARDEN formats: 0.60x0.60 m / 0.60x1m / 1x1m.
Poppers to reduce the 40 cm height to 20 cm.
