

ECHELLE FIB

Plant ladder made of natural materials

MADE IN FRANCE · UV RESIST · 30% Miscanthus · 70% PP

Give your creeper plants room to grow. The natural-looking ECHELE FIB ladder provides firm support and looks nice, too.

Benefits

With a natural look and texture, the ladder almost perfectly blends into its environment. Place it already upon planting to avoid injuring the roots.

Characteristics

70% poly-propylene, 30% Miscanthus (grass) mix, with reduced plastic content. 50 cm tall. Natural brown colour. Made in France.
