

LABEL FIB

Miscanthus Fiber Planting Label

MADE IN FRANCE · UV RESIST · 30% Miscanthus · 70% PP

Label plants and seedlings.

Benefits

Made from a copolymer based on Miscanthus, the plastic content in its composition is reduced. The angle of the upper part allows for easy reading. Its color and texture give it a natural appearance.

Characteristics

Made with a blend of 70% polypropylene and 30% Miscanthus. Highly resistant to UV and frost. Made in Europe.
