

TRELLIWOOD

Extendable wooden trellis, to decorate a wall or trellis plants

For this Trelliwood wood lattice, there are several options available. Made of coniferous wood, it will wear out over time, acquiring a very aesthetic aged color. You can customize it by painting it the color you want. Trelliwood: an expandable and customizable support.

Benefits

Extendable lattice to be fixed on a wall to decorate or support trellis plants. Over time, the color becomes duller, acquiring a very aesthetic aged patina. It can be stained or varnished to protect it from moisture.

Characteristics

Cunnighamia Lanceolata wood slats. Made with FSC® certified wood Slats width: 18mm x 6mm thick and slats width: 23mm x 7mm thick.
