

TRELLINET BIO

Compostable Trellis netting

How to protect your beans, broad beans or cucumbers after they have been planted in the garden so that they can climb when they start to grow? The trellis netting allows better growth of climbing plants and makes harvesting easier. Plus, after use, it can be composted!

Benefits

Made from a compostable organic polyester, it offers a sustainable alternative to natural products (jute, cotton). Allows the cultivation and guidance of vegetables such as: beans, peas, etc.

Characteristics

Compostable biopolyester trellis netting. OK compost according to standard EN 13432: certified raw material. Mesh of 15x15cm. Weight approximately: 18 gr/m²

Ref.	Size.	Color	Mesh (mm)
2019448	1,85 x 10 m	●	20 x 20 cm
2019449	1,85 x 5 m	●	20 x 20 cm
