

PROFIL H

H shaped accessories to be positioned between panels and posts

Profile H is a profile to install the panels in a vertical position. You will only have to slide the panels into the spaces provided in the "H" profile. Once assembled, this Mosaic, Privat or Classic panel can also be decorated with climbing plants.

Benefits

Accessories for the installation of our MOSAÏC, PRIVAT and CLASSIC panels together with ALUPOST (post), PERFIX (square) and BASFIX (base). Does not require any tools. It can be cut to fit all spaces and needs. Only suitable for vertical installations. With anti UV treatment.

Characteristics

Polypropylene.
