

DECOPLANT

Artificial Plants

PVC

Artificial plants have become an essential option for home decoration, as well as for design projects in hotels, offices, restaurants and shops. Their growing popularity is due to a combination of advantages that make them an ideal alternative to natural plants.

Benefits

- Zero maintenance: Forget about watering, pruning or fertiliser. Always perfect, no effort required.
- Realistic appearance: Thanks to high quality materials, our artificial plants replicate the natural texture and colours with great accuracy.
- Versatility in any environment: Suitable for indoors and outdoors without worrying about sunlight or humidity.
- Durability is assured: They stand the test of time, without the need for frequent replacement.
- Cost-effective solution for businesses: Ideal for hotels, restaurants, offices and shops looking for attractive decoration without additional maintenance costs.
- Perfect for retail outlets: Easy storage, wide variety of models and high demand in the decoration market.

Characteristics

Designed with a focus on quality, aesthetics and functionality, offering decorative solutions that meet the expectations of the most demanding customers:

- Premium materials: Made of polyethylene, polyester and other UV and moisture resistant materials.
- Hyper-realistic design: From small shrubs to large indoor plants, every detail is carefully crafted to provide a natural look.
- Wide variety of styles: Find everything from minimalist options to exotic plants, perfect for any type of environment.
- Easy to install and move: Their light weight makes them easy to relocate, ideal for constant renovations in shops and homes.
- Compatible with any type of pot: Personalise your decoration by choosing the support that best suits your style.
